No. 734.—The 9th September 1864.—His Excellency the Governor General in Council, under the authority of the Right Hon'ble the Secretary of State for India, is pleased to publish the following rules in supersession of existing regulations on the subject of examination in the native languages.

These rules are to be considered applicable to the three Presidencies, and will take effect from the 1st February next:—

There will be two standards of qualification in the Hindustani language,—the *first* to be in the place of the examination now commonly called the *Colloquial Examination*, and of the examinations for the command of troops and companies in regiments under the old organization, and for a medical charge; and the *second* to be in the place of the examinations now called the P. H. Staff Adjutants' Interpreters, and all similar examinations in the three Presidencies; but all Officers who have passed these latter examinations, or who may pass them before the 1st February next, will be eligible for the Staff Corps or for ordinary staff employment without further examination.

FIRST STANDARD.

II. The OBJECT of the *First Standard* is to ensure that Officers passing it shall have acquired such a knowledge of the Hindustani language as shall enable them efficiently to discharge their military or professional duties when serving with native troops.

III. To this end candidates will be tested as to their ability to read and translate passages from easy Hindustani books written in the Persian and *Devā Nāgarī* characters; and to speak on and interpret common or professional subjects, so as to understand, and to be understood by, any ordinary uneducated native of India.

TESTS.

IV. *First*.—Reading fairly, and construing with accuracy, not less than half of an octavo page of the undermentioned works:—

1. "Hindustani Selections" in the Persian character.
2. "Hindustani Selections" in the *Devā Nāgarī* character.

Second.—Conversing with the Examiners, or with natives of India, on subjects likely to occur in the performance of regimental or professional duty in the transaction of ordinary business, or in the course of every-day life.

If this test be applied through the medium of a native of India, he should speak the plain Hindustani of the Presidency or Province in which the examination is held free from peculiarities of idiom and dialect, and not a *patois*;—and though, as regards the performance of professional duties, it must, to a certain extent, be technical in its nature; if, in other respects, the candidate prove his ability to comprehend readily all that is said to him, and to make himself fairly intelligible, more should not be required.

SECOND STANDARD.

V. The OBJECT of the *Second Standard* is to insure that Officers passing it shall have acquired such a knowledge of the Hindustani language as shall qualify them, so far as that language is concerned, for general employment on the staff, and for admission to the Staff Corps.

VI. To this end candidates will be tested as to their ability,—1st, to read and construe passages in books of ordinary difficulty in *Urdu* and *Hindi*; 2nd, to make accurate and idiomatic written translations from English into Hindustani in both the Persian and *Devā Nāgarī* characters; 3rd, to read and translate petitions, native letters, &c., in *Urdu* and *Hindi*; 4th, to converse with educated or uneducated natives of India.

TESTS.

First.—Reading fluently, and construing with readiness and accuracy, not less than an ordinary octavo page of the undermentioned works:—

1. The *Bāgh-o-Bahār*.
 2. Selections from the prose of the *Prém Sāgar*.
- Second*.—Translating accurately, and with correctness of idiom and grammar, not less than half an ordinary octavo page of plain English into language similar to that of the *Bāgh-o-Bahār* in the Persian character, and an equal amount in the *Devā Nāgarī* character, into language similar to that of the *Prém Sāgar*.

Third.—Reading fairly, and translating readily and correctly, Hindustani manuscripts written in both the Persian and *Devā Nāgarī* characters.

These MSS. may be selected from the proceedings of a case in Court, from reports or petitions addressed to Civil or Military Authorities, from letters passing between natives

of India in the ordinary course of business, or from private correspondence. They should not be written with the clearness of a printed book, nor yet in a very cramped or crabbed hand; but in such a manner as fairly and honestly to represent the written characters as practically employed in the Presidency or Province in which the examination is held.

Fourth.—Conversing with the Examiners or with natives of India with fluency, and with such correctness of pronunciation, grammar, and idiom as to be at once intelligible.

VII. Every candidate passing an examination by the *First Standard* in Hindustani will be entitled to receive an allowance of Rs. 180; and on passing by the *Second Standard*, an allowance of Rs. 180 additional; or, in the case of an Officer passing at once by the *Second Standard*, Rs. 360.

XVI. In addition to the foregoing donations, the Government of India, and the Governments of Madras and Bombay, respectively, may award a Gold Medal to any Officer employed under any such Government who is reported by the Board of Examiners to have passed an examination in any language with extraordinary merit.

* The examinations for certificates of High Proficiency in the first six languages here mentioned shall be according to the tests prescribed for similar examinations in the College of Fort William, and the tests for the other five languages shall be laid down by the Local Governments.

SEPARATE REVENUE.

WITH reference to letter from this Department No. 159, dated 13th January 1864, I am directed to forward, for the information of the Hon'ble the Lieutenant-Governor, copy of a Separate Revenue Despatch from the Right Hon'ble the Secretary of State for India, No. 10, dated 16th May 1864, and of its enclosure, and to request that the Government of India may be favored with an early opinion on the suggestions contained in the correspondence adverted to in paragraph 1, and a report on the subject of paragraph 3, thereof.

From the RIGHT HON'BLE SIR CHARLES WOOD, Bart., M. P. and C. C. B., Her Majesty's Secretary of State for India, to His Excellency the Right Hon'ble the Governor General of India in Council,—(No. 10, dated India Office, London, the 16th May 1864.)

line of the plan which you proposed to adopt for the disposal of the Government Stock of Salt in

forward to you, herewith, copies of the correspondence for your consideration and for communication to the Lieutenant-Governor of Bengal.

2. I approve generally of the plan proposed, subject to such modifications as you may see fit to adopt on the receipt of this Despatch. You will of course furnish me with a copy of the formal Notification which the Government of Bengal has been requested to prepare and submit for your approval.

3. With regard to the other point referred to in this correspondence, I do not understand why it should have been considered necessary, in the present depressed state of the Salt market at Calcutta, to call upon Importers who hold Salt under Bonds to pay up the full amount of Duty on the expiration of those Bonds. If such an order has been issued, as alleged, I desire to be informed of the circumstances which, in the opinion of the Government, rendered such a step expedient.

From HERMAN MERIVALE, Esq., to JOHN TOLLEMACHE, Esq., M. P.,—(dated India Office, the 28th April 1864.)

WITH reference to Mr. Melvill's letter to you of the 31st July 1863, I am directed by the Secretary of State for India in Council to inform you that he has just received from the Government of India an intimation of their intention to take measures for disposing of the Stock of Salt now in the possession of the Government of Bengal. That Stock amounts to about 75,00,000 maunds. and the Government have resolved that of this quantity 15,00,000 of maunds shall be sold by auction, after twelve months' notice, in the course of the year 1865, in such proportions and at such times as may be most convenient to the trade, and that the remainder shall be sold in 1866 and the two following years in the same manner, at the rate of 20,00,000 maunds in each year. An upset price, calculated with reference to the prevailing market prices of the kinds of Salt which are to be sold, will be fixed in order to prevent combinations

place themselves under any obligation to fix the upset price according to any precise data.

2. A copy of this letter will be forwarded to the Salt Chamber of Commerce at Northwich for their information.

From HERMAN MERIVALE, Esq., to the Secretary, Salt Chamber of Commerce, Northwich,—(dated India Office, the 28th April 1864.)

I AM directed by the Secretary of State for India in Council to forward to you, for the information of the Salt Chamber of Commerce at Northwich, copy of a letter which has been this day addressed to Mr. John Tollemache, M. P., relative to the measures about to be taken by the Government of India for the disposal of the Government Stock of Salt in Bengal.

2. A copy of the formal Notification which the Government of Bengal has been instructed to prepare will be forwarded to you immediately on its receipt in this Office.

From JOHN TOLLEMACHE, Esq., M. P., to the RIGHT HON'BLE SIR CHARLES WOOD, Bart., M. P. and G. C. B., Her Majesty's Secretary of State for India,—(dated the 6th May 1864.)

AT the request of the Northwich Salt Chamber of Commerce, I beg to forward the accompanying answer to the communication with which you favored them on the 28th of last month.

The Members of the Chamber make, in their answer, two suggestions that I have underlined, with which, I venture to hope, you will be able to comply.

There is another matter which I beg to submit to your consideration. Lately a notice has been issued by the Authorities at Calcutta, calling on those Importers who have Salt in Bond to pay forthwith the Duty on the Bonds which have expired. These Importers pray that the course may be pursued of allowing the payment of the Duty to be deferred until the Salt is sold for consumption.

I take the liberty of enclosing to you a letter on this subject from Mr. deMattos.

From W. N. DEMATTOS, Esq., to W. HADFIELD, Esq., Secretary to the Salt Chamber of Commerce,—(dated 27, Leadenhall Street, the 25th April 1864.)

MESSRS. ASHBURNER AND CO. write from Calcutta, under date March 20th 1864:—

"Government are now calling on us to pay the Duty on the Salt bonded under Bonds which have expired. If this be enforced, we shall have to pay on the old Bonds which cover 3,00,000 maunds, Rupees 9,75,000 for Duty at Rupees 3-4 per maund, or sell the Salt at best prices obtainable, in which latter case the proceeds would hardly cover the charges incurred.

"You will easily perceive that this will be a great hardship as it is only now that (the Indian Government having come to a determination as to the periodical disposal of their own large Stock of Salt) an advance in price may be looked for, and thus enable the various holders of imported Salt to gradually relieve their Stocks, upon which they have already lost a very large amount in charges and interest without having to add to it the frightful incubus which the Indian Government are now disposed to do."

Kindly submit this to Mr. Tollemache, and through him to Sir Charles Wood, so as to get this Duty question placed on the ordinary footing

of only paying it when cleared for actual consumption.

From JOHN CORBETT, Esq., Deputy Chairman to the Salt Chamber of Commerce, to the Secretary of State for India, India Office,—(dated Northwich, the 29th April 1864.)

THIS Chamber have to thank the Hon'ble Council for India for their communication of the 28th instant, and they are of opinion that the plan suggested by the letter referred to, for the disposal of the Government Stock of Salt in India, is the best which could be adopted under existing circumstances.

They take leave to suggest that the dates for the sales should be fixed for the 1st July in each year, and that the upset price which Government mean to put on should be published no sooner than on the day of sale, as it would otherwise lead to probably disastrous combinations of the dealers.

This Chamber have further to urge upon your Hon'ble Council a lenient construction of the bonding system at Calcutta. Lately another notice was issued by the Calcutta Board to clear all old Bonds, and Importers were requested to pay the Duty upon their Stocks. The Chamber hope that, like on a former occasion, this order will be reversed again; but in the meantime it causes great consternation amongst Importers, which, of course, re-acts disastrously upon the trade.

The Chamber take this opportunity of expressing their humble acknowledgments of the courtesy and attention shown their trade by your Hon'ble Council.

From the HON'BLE A. EDEN, Secretary to the Government of Bengal, to the Secretary to the Government of India, Financial Department,—(No. 2602T., dated Darjeeling, the 29th August 1864.)

WITH reference to your No. 1444, dated the 19th ultimo, and enclosures, I am directed to inform you that the Board of Revenue have been asked for an expression of their views on the several points discussed by the Right Hon'ble the Secretary of State. In the meantime the Lieutenant-Governor desires me to transmit, herewith, copy of a letter addressed to the Board on the 26th of November 1863, No. 4444, in order that the Home Government may be informed of what has been done in regard to the Bonds noticed in the 3rd paragraph of the Secretary of State's Despatch of the 16th May last, No. 10.

From S. C. BATLEY, Esq., Junior Secretary to the Government of Bengal, to the Junior Secretary to the Board of Revenue,—(No. 4444, dated the 26th November 1863.)

I AM directed to acknowledge the receipt of your letter No. 1414, dated the 16th instant, proposing an alteration of Section 114, Act VI. of 1863, in regard to Bonds of Salt, and in reply to state that the Lieutenant-Governor does not think that by the Section Government is absolutely precluded from making a special arrangement with Bonders whereby the payment of Duty shall be deferred for a period exceeding three years, if from special circumstances it appears expedient to do so. Section 114 is intended simply for the protection of Government, and its object is to secure to Government the payment of Duty within three years; but if Government wishes to waive the advantages which it derives under this Section, it is presumed that it has a right to do so. The

Advocate-General's Opinion on the subject is herewith forwarded for the Board's information, and the form of the renewed Bond should, I am to add, be drawn up in communication with that Officer.

2. There is the gravest objection to an amendment of the Law, and the circumstances which render an extension of the period of bonding necessary are avowedly exceptional and are not likely to occur again.

3. In conclusion I am to state that the Bonders should be compelled to move from the Howrah Golahs when the term of the first Bond expires.

From H. T. PRINSEP, Esq., Officiating Junior Secretary to the Board of Revenue, Lower Provinces, to the Secretary to the Government of Bengal,—(No. 784, dated the 5th September 1864.)

IN reporting on the questions raised in the correspondence forwarded by your Memorandum No. 2711, dated 3rd ultimo, for an expression of the views entertained by the Board, I am directed to state that the Board have no objection to the suggestions of the Salt Chamber of Commerce, Northwich, that the annual sales of Government Salt should be fixed for the 1st of July, and that the upset price should be published no sooner than on the date of sale, and with the permission of Government the Board will be prepared to give due effect thereto.

2. As regards the complaint that, notwithstanding the depressed state of the Salt market in Calcutta, the Board have called upon Importers who hold under Bonds to pay up the full amount of Duty on the expiration of those Bonds. I am directed to explain that, whenever the term of a Bond has expired and no application for its renewal has been made, the Collector of Customs is in the habit of making a call in the lithographed form hereto annexed. The term of all Bonds is, under Section 79, Act VI. of 1863, limited to three years; but in the case of Salt, the Government, on the 26th November 1863, No. 4444, acting on the opinion of the Advocate-General, extended that term to five years. Under these circumstances the Board consider that the Collector of Customs is bound, after the expiry of a Bond, to demand the Duty leviable thereon, unless the Bonder can produce an authority for its renewal; and I am to add that in the opinion of the Board the term should not be exceeded without the express orders of Government.

3. With regard to the complaint of Messrs. Ashburner and Co. in their letter to Mr. de Mattos, of London, which has given rise to the reference under report, I am further to explain that, from enquiries that have been made from that firm and the Collector of Customs, the Board find that the demand for payment of Duty was made after the expiry of the currency of the Bond, no application having been made for its renewal, and I am to add that, except in a recent case, under special circumstances, the Board have never refused to grant renewal to the holder of an expired Bond.

Collector of Customs, Calcutta,

TO

186 .

GENTLEMEN,

THE period allowed for goods to remain in Bond having expired in respect to the undermentioned goods bonded by you, I have the honor to request you will be so good as to adjust the Duty and charges due on the same without delay.

I have the honor to be,

GENTLEMEN,

Your most obedient Servant,

Collector of Customs.

From S. C. BAYLEY, Esq., Junior Secretary to the Government of Bengal, to the Officiating Junior Secretary to the Board of Revenue.—(No. 3344T., dated Darjeeling, the 19th September 1864.)

I AM directed to acknowledge the receipt of your letter No. 784, dated the 8th instant, submitting the Board's views on the measures proposed in England for reducing the Government Stock of Salt in Bengal.

2. In reply I am to say that the Lieutenant-Governor concurs with the Board in the view they have taken of the suggestions of the Salt Chamber of Commerce at Northwich regarding the annual sales of Government Salt.

3. In regard to the renewal of Bonds for the Duty on imported Salt, I am to say that whenever an application is made and no special reasons existing against such a concession the Bonds should be renewed. If no application is made to renew the Bond, the Collector of Customs is quite right on its expiry to demand the Duty.

From the HON'BLE A. EDEN, Secretary to the Government of Bengal, to the Secretary to the Government of India, Financial Department.—(No. 3345T., dated Darjeeling, the 19th September 1864.)

IN continuation of my No. 2602T., dated the 29th ultimo, I am directed by the Lieutenant-Governor to forward, for the information of the Home Government, the accompanying copy of papers* relative to the measures proposed in England for reducing the Government Stock of Salt in Bengal. It will be seen that the Lieutenant-Governor concurs with the Board in approving of the suggestion made by the Salt Chamber of Commerce at Northwich in regard to the annual sales of Government Salt.

The 21st October 1864.—The following Order issued by the Government of India in the Home Department is re-published for information :—

No. 3101, the 5th October 1864.—The Governor General in Council having had under consideration the Rules for the examination of Military Officers seeking admission to the Staff Corps in the Civil and Political Departments, which were published in the Notification of Government No. 242, dated 25th May last, has determined, subject to the sanction of Her Majesty's Secretary of State, on the substitution of the following Rules :—

In continuation of the general Regulations for the admission of Officers to the Staff Corps, notified by the Military Department in G. O. No. 531 of 1864, dated the 27th June, the following Rules relating to the future employment of Military Officers in the Civil and Political Departments of the Government are published for general information :—

I.—A candidate for appointment to the Civil or Political Department, with the view of qualifying for the Staff Corps, must furnish the certificates mentioned in paragraph 5 of G. O. No. 531, of which the forms were given in Appendix A. of the same General Order, and are now re-published at the end of the present Notification.

II.—He must have been previously attached, for a period of not less than one year, to a Native Regiment ;* but such period may form part of the three years' duty with a Regiment required by the general Regulations for admission to the Staff Corps. He will be required to produce a certificate from his superior Officer, testifying to his efficiency and good conduct, and especially to his conciliatory demeanour towards the Native soldiery and other people of the country with whom he has been brought in contact.

III.—The period of one year,—reckoned, as explained in the following Rule, from the date of the first half-yearly examination held subsequent to appointment,—is fixed as the limit within which an Officer, admitted on probation to employment in the Civil or Political Department, will be required to qualify himself to undergo the examinations hereinafter mentioned, in passing which he will have a claim to have his services retained, and he will then, under the orders of the Military Department, be appointed to the Staff Corps.

IV.—Examinations will be held half-yearly in October and April of each year. A candidate may appear at the first examination held after the expiry of the first six months of his probation, and if he fail to pass must again appear at the next examination, six months later. A candidate failing to pass at the first examination, held after the expiration of his year of probation, will be removed from employment in the Civil or Political Department, and consequently will not be appointed to the Staff Corps.

V.—Subject to such general directions as shall from time to time be given by the Government of India, the examinations will be conducted by a Committee acting under the orders of the Lieutenant-Governor, or Chief Commissioner, or Political Agent or Resident, as the case may be.

VI.—The examination will embrace, in the case of Officers employed in general Civil duties, the subjects of Indian History, Political Economy, and Jurisprudence. The works on the two lastnamed subjects, in which candidates will be examined, are Mills' Political Economy, Austin's Principles of Jurisprudence, Volume I., and Maine's Ancient Law. Notice of any change in the books for examination will be given at least one year before it takes effect.

VII.—Every Officer in Civil employment will, in addition to the above examination, and notwithstanding his appointment to the Staff Corps, be required to undergo the local and departmental examinations prescribed for Covenanted Civil Servants in the Province in which he is serving.

* Any Officer who has been employed for a year in one of the Departments named on the margin will be exempted from the condition prescribed by Rule II. of one year's service with a Native Regiment. Provided, however, that he shall produce, from the Officer under whom he may have served in any such Department, a certificate (to be countersigned by the Head of the Department) to the same effect as that required from a superior Officer in case of service with a Native Regiment.

VIII.—The examination in the case of Officers employed in the Political Department will embrace the subjects above-mentioned, and the candidate will, in addition, be examined in Wheaton's Work on the principles of International Law. He will also be examined in the collection of Indian Treaties and Engagements, now being published under the direction of the Foreign Office.

IX.—No Officer will be admitted on probation to Civil or Political employment who has not passed the examination in Hindustani, required by the general Regulations for the admission of Officers to the Staff Corps.

X.—Cantonment Magistrates will be classed with Officers in Civil employment. Separate Rules will be promulgated hereafter as regards Police Officers; but Police Officers, if transferred to Civil employment, will be required to pass the examination prescribed for Officers in Civil employment.

XI.—As a general rule, Military Officers will be appointed to the Political Department from among those who are already in Civil employment, and every Officer so transferred will be required to pass, within one year from the date of his transfer, the additional examination in International Law and Indian Treaties prescribed for the Political Department, failing which he will forfeit his appointment.

XII.—These Rules are intended to be prospective in their effect. They will not apply to any Officers now holding permanent appointments in Civil or Political employment. Such Officers will be entitled to join the Staff Corps in virtue of their appointments. Officers, however, who do not hold permanent appointments will be subject to these Rules. But the case of any Officer who has been formerly in Civil or Political employment, and who, having quitted such employment, may hereafter be re-appointed to it, will be especially dealt with as the circumstances of the case may require.

SECTION XII.—If any person shall, within the British Territories in India, draw any Bill of Exchange purporting to be drawn in a set of two or more, and shall not draw at the same time on paper duly stamped as required by this Act the whole number of Bills of which such Bill purports the set to consist, he shall forfeit a sum not exceeding one thousand Rupees.

SECTION XIII.—If any person, in order to avoid the payment of the duty prescribed by Schedule A. annexed to this Act, shall make or draw any Bill of Exchange bearing a date subsequent to the date on which such Bill is actually made or drawn, or if any person, knowing that such Bill has been so post-dated, shall take or receive such Bill, or shall accept, pay, endorse, transfer, or in any manner negotiate the same, every such person so offending shall forfeit a sum not exceeding five hundred Rupees.

Bhaugulpore Divisional Show of Live Stock and Agricultural Produce.

PROSPECTUS.

1. A Show of Live Stock and Agricultural Produce for the Division of Bhaugulpore will be held at Bhaugulpore on the 23rd, 24th, 25th, 26th, and 27th of January 1865.

2. For the purposes of the Show Government has given the sum of Rupees 3,000, and more than double this sum will be raised by public subscription.

3. The Prizes detailed below are offered for competition to persons residing or holding property within the Division of Bhaugulpore; but any Prize may be withheld if, in the opinion of the Judges, the Live Stock or Produce exhibited is not of such quality as to merit the Prize.

4. Arrangements will be made for the conversion of Prizes of the value of Rupees 20 and upwards into medals, cups, plates, &c., with suitable inscriptions, should the holders of such Prizes prefer to receive them in such forms.

5. Exhibitors will be required to submit a list of Live Stock and of Agricultural Produce intended for exhibition not later than the 1st of January either to a District Committee or to the Divisional Committee. Live Stock must be forwarded under the charge of a person appointed by the Exhibitor, and all articles intended for exhibition must be forwarded to Bhaugulpore not later than the 20th of January.

6. Live Stock and Produce must in all cases be distinguished by a label specifying the nature of the article contributed, the name of the Exhibitor, and the part of the country from which the animal or produce (as the case may be) comes.

7. Any person desirous of exhibiting Live Stock, but unable to afford the expense of transmission to Bhaugulpore and maintenance while there, may be assisted with money on application to be made to the Committee of the District in which he may reside.

8. Arrangements will be made by the Divisional Committee to enable Exhibitors and their servants to purchase, at rates to be fixed by the Collector, provisions, firewood, forage, &c., close to the place where the Show is to be held.

9. Exhibitors will be admitted to the Show Yard free of charge.

10. From non-exhibitors an entrance charge of 1 Rupee a person will be taken on the first and on the last day of the Show, of two annas on the second, and of one anna on the third day. Entrance will be free to all on the fourth day. Tickets for admission will be obtained on application to the Secretary to the Divisional Committee.

11. Prize Lists in English, Oordoo, Hindee, and Bengalee will be circulated in a short time, and additional copies will be supplied (on application) by the Collectors and other Chief District Executive Officers of the Division. These Officers will also furnish any further information which may be required.

12. The Prizes will be distributed on the last day of the Show.

13. The hearty co-operation of all the Landholders and gentry of the Division, Native and European, is respectfully invited, and this can best be afforded by their searching out and exhibiting the best specimens of the Live Stock and Agricultural Produce of their estates; by contributing to the Prizes and general expenses of the Exhibition, and by their personally attending it with as many of their tenants and dependants as they can conveniently bring with them to Bhaugulpore.

I AM directed to forward, herewith, 100 copies of the correspondence which has recently passed on the subject of improving the breed of Bengal cattle and the cultivation of vegetables for the consumption of European Troops.

2. You are requested to distribute these papers among the Zemindars and other persons likely to read them and to profit by the information they contain.

From R. B. CHAPMAN, Esq., Secretary to the Board of Revenue, Lower Provinces, to the Secretary to the Government of Bengal,—(No. 349, dated the 7th September 1864.)

IN reply to Government order No. 3224, dated 6th August, I am directed by the Board of Revenue to say that, except by the liberal and enlightened encouragement of Cattle Shows and Fairs in which the Government is already engaged, the Board do not think that the Government can practically do much to improve the breed of cattle in Bengal.

2. The conditions of the permanent settlement effectively and decisively preclude any such interference by the Government with the arrangements of the Landholders in Bengal, as is suggested in the 3rd paragraph of the Report of the Special Committee of the Agricultural Society submitted to Government with the Society's letter of the 29th March.

3. If Landholders are not sufficiently alive to their own interests or duties to provide proper food for the cattle of their Estates, whether by setting aside grazing grounds or promoting the growth of nutritious fodder, it would be perfectly useless for the Government to attempt, by proceedings which, to be effectual must be most offensive and inquisitorial, to supply the necessary impetus.

4. The Board can only hope that if, as is probable, the greatly increased value of agricultural produce has led to the curtailment of the proper supply of food to the cattle, the evil effects of so short-sighted a policy may rapidly compel those interested to apply the remedy which is in their own hands, and which is not in the hands of the Government. The production of good crops cannot be kept up without good cattle, and it may therefore be reasonably expected that the very increase in the value of the crops which has, at the outset, told to the injury of the cattle will presently lead to their improvement.

5. I am to add that the Second Member did not, as President of the Agricultural and Horticultural Society, concur in the adoption of their report to Government, and that his own views are much more in accordance with those of the Landholders' Association.

Further Papers on the subject of Indigo Cultivation in the Nuddea District.

From H. L. DAMPIER, Esq., Commissioner of the Nuddea Division, to the Secretary to the Government of Bengal,—(No. 194, dated the 8th September 1864.)

WITH reference to paragraph 6 of my letter No. 73, dated 6th May 1864, I have the honor to forward, for the information of His Honor the Lieutenant-Governor, translation of a portion of a lease which Mr. A. Hills, of Katchikatta, has just sent me. Mr. Hills states that he gives a Deed in this form to every Ryot in his elakah who has made a Contract for Indigo, and that it is the fault of the Dowkee Ryots themselves that they will not accept such leases.

2. It will be seen that the remission of rent which is made in the present instance is nearly Rupees 75 on the entire holding, and this is allowed in consideration of the tenant cultivating 5 beegahs of Indigo, which is equivalent to a payment of 15 Rupees a beegah in addition to the payment for produce delivered, as stipulated in the separate Deed of Indigo Contract.

3. It has always been urged on the part of the Planter that the Ryot derived very great contingent advantages from the cultivation of Indigo; but the distinct definition of these advantages and their specification in a document which binds the Planter Landlord is a new feature. If the system be fairly carried out it will meet many of the objections which are ordinarily advanced against the one-sided character of the arrangements between Planters and Ryots; and it cannot, I think, fail gradually to smooth away much of the difficulty which the Planter has hitherto experienced in inducing the Ryots to enter into Indigo Contracts and to act up to them when entered into.

4. Some proceedings have lately come before me from which it appears that Mr. Tripp, the Manager of the Mulnauth Concern, has, in one village at least, been giving documents guaranteeing a certain rate of rent in exchange for engagements to cultivate Indigo. I wish the system were universally adopted.

5. The impression now prevails that the tenants on an estate which happens to be held by

a Planter are served with notices of enhancement of rent, and are sued for rent at enhanced rates for the sole object of putting pressure on them to grow Indigo. It is believed that, if Indigo were out of the question, the Landlords of these estates would not take measures to enforce such immediate enhancement. As long as Indigo is looked upon as being practically the cause of the enhancement, it cannot be expected that its cultivation will be popular with the Ryots, even though the mitigation of the evil of enhancement be secured to them by a formal document.

6. If, however, 1 Rupee per beegah (speaking roughly) be a fair and equitable rate of rent in the neighbourhood, this cause of unpopularity will gradually disappear, for sooner or later the neighbouring Landlords, who are not Planters, will exact that rate, and then it may be that Indigo, being no longer regarded as the cause of enhancement, its cultivation will really be appreciated as an equivalent for a portion of the rent which is advantageous to both parties. On the other hand if the Rupee per beegah be so high that it cannot practically be levied, the Planter can scarcely be blamed for availing himself of the advantages given to him by a rate of rent which has been judicially fixed.

7. But to give weight to the argument that the Planters are making no more than legitimate use of the advantages which the late judicial decisions on rent have put into their hands, it is necessary that, however far they may go in the exercise of their legal powers, they should do so fairly; and that they should be careful not to take advantage of the Ryot's ignorance and credulity by threatening him with the exercise of powers which they do not possess. The following extract from a letter of the Collector of Nuddea gives an instance of what a Planter should not do if he wishes to strengthen the position of those who maintain that he is only making a legitimate use of his legal powers as Landlord:—"After the expiration of the Bengalee month Cheyt a complaint was once made to me by the Manager of an Indigo Factory that certain Notices under Section XIII. of Act X. which he had requested a Sub-Divisional Officer to serve had not been served on the Ryots. I promised that I would enquire into the matter, but pointed out at the same time that as the period allowed by law had expired I could not then enforce the service of the notices. The reply to this remark was that service of the notices after the expiration of the time allowed by law would serve the applicant's purpose equally well, as the object was not in reality to enhance the ryots' rent, but to bring them to terms with the Factory."

Translation of the Pottah or Deed of Engagement granted by Mr. A. Hills, of Katchikatta Factory, to Moochai Joardar, of Alchara, on the 6th November 1863.

TO MOOCHAI JOARDAR.

THIS is a Deed of Pottah. I have obtained against you on the service of a notice a decree for the amount of rent which you will have to pay annually on account of the lands which are in your possession in Mouzah Alchara, Dehee Bohunbarea, in my Putnee Talook Pergunnah Bhandardoho. You have bound yourself to

cultivate under your own management 5 out of the 160 beegahs of land you hold of me with Indigo for the Poradoho Factory, either in the Kartica or Bataba season, according as I will direct. You have now applied to obtain a Pot-tah. This I grant to you. The decree awards the rate of the *Mathan lands* at 1 Rupee per beegah, but I show you some consideration on the above ground by fixing the rate to 8 annas 6½ pie per beegah, and making a settlement of the entire 160 beegahs, consisting of *Bastoo* (for habitation) and *Mathan* (for cultivation) lands, of the prevailing *haut* of 18 inches, at a gross rental of Rupees 90-14-5 per annum, as shown in the sub-joined detail. You have willingly agreed to the settlement and executed a counter-engagement with conditions that you will pay in the rent annually according to the instalments to be fixed, in violation of which you will be liable to pay interest at the rate of 1 Rupee per cent. per month. If in contravention of the terms of the Shatta or Indigo engagement, which you have separately executed, you neglect to cultivate under your own management the above-mentioned quantity of land with Indigo, or negligently fail to supply the plant, you will have, without any objection, to pay with interest annually the full rate of 1 Rupee per beegah for *Mathan* lands as awarded by the decree. After the expiry of the term of the Indigo Shatta you will execute a fresh one for the same quantity of land. You will engage yourself to the cultivation of Indigo in conformity with the terms of that Kobooleut. If you do not execute the engagement, or make pretences so as to delay its execution, *then I will*

NOTE.—Mr. Hills writes :—
"In the instance of one vil-
lage objection has been raised
"to this clause by the Ryots, and
"wherever right of occupancy
"exists it will in the future be
"rescinded."

against which no objections, either of yourself, your heirs or representatives, will be of any avail. You will have to pay rent at a similar rate for the lands which will be found, on investigation, in your possession in excess of the above quantity.

From the HON'BLE A. EDEN, Secretary to the Government of Bengal, to the Commissioner of the Nudda Division.—
(No. 3412T, dated Darjeeling, the 22nd September 1864.)

I AM directed to acknowledge the receipt of your letter No. 194, dated the 8th instant, submitting a specimen of a Deed which Mr. Hills, of Katchikatta, offers to every Ryot in his estate who contracts to sow Indigo for him.

2. The Lieutenant-Governor concurs with you in thinking that the distinct specification in a formal Deed of the advantages which the Planter offers to the Ryot in return for his consent to sow Indigo for the Planter is likely to be attended with very favorable results in smoothing away the difficulties which now exist in the relation between Planter and Ryot.

3. The Deed, of which you have submitted a copy, offers, I am to observe, to the Ryot a tangible return for his consent to grow Indigo; but the Lieutenant-Governor still thinks that misunderstanding and ill-feeling would be obviated if the production of Indigo was entirely separated from all question of rent, and treated, like other branches of trade, on its own merits.

4. The clause in the Deed entered on the margin would appear to be of doubtful legality in the case of Ryots having rights of occupancy, but it is satisfactory to notice that it is to be omitted from future leases on Mr. Hills' estates.

5. I am to request that you will explain what is the precise nature of the objections that the Ryots make to the cultivation of Indigo on the terms now offered by Mr. Hills.

Abolition of Slavery in Cooch Behar.

From LIEUTENANT-COLONEL J. C. HAUGHTON, Commis-sioner of Cooch Behar, to the Secretary to the Govern-ment of Bengal,—(No. 295, dated the 19th September 1864.)

I HAVE the honor to report, for the information of the Hon'ble the Lieutenant-Governor, that the abolition of Slavery in Cooch Behar was formally proclaimed at a public Durbar held at the celebra-tion of the Poonea Festival on 7th instant, on which occasion a Regulation printed in the Bengalee language, embodying the provisions of the Penal Code, Sections 359 to 374, was distri-buted.

Papers regarding the conduct of Native Officials in Assam in connection with the purchase of Waste Land.

From J. BECKWITH, Esq., Secretary to the Landholders' and Commercial Association, to F. R. COCKERELL, Esq., Officiating Secretary to the Government of Bengal,—
(dated the 11th February 1864.)

I AM directed by the Committee to bring to the notice of His Honor the Lieutenant-Governor a complaint which has been made by the Upper Assam Tea Planters' Association regarding the conduct of certain of the Native Officials of the Courts in that Province who are alleged to have run up the price of waste lands at the auctions without intending to purchase, and without being in a position to make good the payment of the cost of the land.

2. The Association in question have addressed the Officiating Commissioner of Assam on the subject of the Native Officials being allowed to engage in Tea and Land speculations, whilst their European superiors are prohibited from doing so, stating very truly that "there can be no argu-ment against gentlemen of education engaging in such pursuits that would not apply with at least equal force to Natives holding appointments under them."

3. This Association memorialized the Secre-tary of State for India, asking that all classes of Her Majesty's subjects should be permitted to purchase and hold lands, and although this request was not complied with, and the reasoning of the Assam Tea Planters is perfectly logical, the Committee are not prepared to ask that the anomaly should be removed by taking away the

privilege from any class of Her Majesty's subjects who now enjoy it, but are on the contrary prepared to repeat their prayer that the restriction may be removed from the Covenanted Officers of Government whenever they see any prospect of such an appeal being successful.

4. I have on former occasions pointed out the hardship the present auction system imposed on those who had expended their time and money in exploring country and selecting lands by allowing others who had stood by to bid against them on even terms, and this hardship is no doubt greatly increased when the competition proceeds from the Establishment of the Officer who has to conduct the sale; still, so long as the system exists, the Association will not ask for any restrictions on the free competition of all *bona fide* buyers, but will confine themselves to proposing that the Sale Rules should be so applied as to test the *bona fides* of those who bid.

5. It does not appear that the Officers in Assam require any deposit to be made at the time of bidding, nor do the Rules for the Sale of Waste Lands prescribe any such step to be taken, and hence has arisen the practice (alleged to exist and complained of) of the Native Officers of the different Courts bidding up parcels of land which they do not really desire to purchase, and for which they are not the least prepared to pay.

6. I am, therefore, directed to request that His Honor the Lieutenant-Governor will give orders that in all sales of waste lands the usual condition shall be observed of requiring the party who is declared to be the purchaser to deposit immediately a certain percentage of the amount of his bid, and in default of such deposit that the lot be forthwith put up again and sold, the first purchaser being liable for any loss on the re-sale.

7. In Section 253 of Act No. VIII. of 1859, regulating the deposit to be made by the purchaser of immoveable property, the percentage to be paid down is fixed at 25 per centum, but as the Waste Land Sale Rules allow 90 per cent. of the purchase money to remain unpaid, the deposit cannot exceed 10 per cent., and this, if required to be produced in the auction room, will, it is hoped, put a stop to the biddings of those who have other objects than the purchase of the land whilst it will not deter *bona fide* buyers.

From R. B. CHAPMAN, Esq., Secretary to the Board of Revenue, Lower Provinces, to the Junior Secretary to the Government of Bengal.—(No. 145, dated the 15th April 1864.)

In reply to your No. 708, dated 19th February, I am directed by the Board of Revenue to submit, for the information of His Honor the Lieutenant-Governor, the accompanying report from the Commissioner of Assam, No. 192, dated 31st March, upon the subject of the purchase of waste lands by the Native Officials of the Revenue Courts in Assam.

2. The Board entirely agree with the Commissioner of Assam that it is unnecessary to issue any general prohibition against such purchases, and, with the permission of the Lieutenant-Governor, they will direct Colonel Hopkinson to withdraw the Circular instructions issued by Major Agnew. Such instructions ought not to have been issued without the Board's authority.

From LIEUTENANT-COLONEL H. HOPKINSON, Commissioner of the Assam Division, to R. B. CHAPMAN, Esq., Secretary to the Board of Revenue, Lower Provinces.—(No. 192, dated the 31st March 1864.)

I HAVE the honor to acknowledge the receipt of the papers noted in the margin, and to reply to the Board's questions whether there has been much bidding at sales of waste land on the part of Native capitalists and agriculturists, or whether the competition is for the most part confined to European Planters; and *secondly*, whether it is the practice of Government Amlahs to bid for lots put up at sales held in the Courts to which they are attached.

2. In answer to the first question, I have to report that the Natives have not been large purchasers at the land sales. In Nowgong and Luckimpore no Natives have bought lands; in Kamroop one lot only has been sold to a Native; in Durrung two lots; and in Seeksagur only have the Natives (Marwaree traders) come forward and purchased several lots. I think that though the Waste Land Rules were translated in the vernacular language and had otherwise publicity given them in Assam, their scope was not thoroughly comprehended by the Natives at first, and also that Native bidders have been, and are still deterred by the minimum area for a lot of waste lands having been fixed by the District Officers so high as one hundred acres.

3. I have addressed the Board separately on the subject of the minimum area to be fixed for lots of waste land; it is not without its difficulties, but I am inclined to think that the most equitable course is to fix the limit only with reference to administrative convenience, and that in the sequel it would be found that we had not done wisely were we to legislate to protect persons wanting large lots of land from persons wanting small lots of land, or *vice versa*. Let each take what he wants so far as we can give it to him, in the assurance that large and small capitalists are sure to come eventually to the best adjustment of their conflicting interest among themselves.

4. In reply to your second question, whether it is the practice of Government Amlahs to bid for lots put up at sales held in the Courts to which they are attached, I beg to state emphatically, that no such practice exists. I can only find two instances of anything of the kind having occurred, namely, at the Seeksagur land sale of the 2nd December last, when a Mohurir in the Treasurer's Office and a Moonsiff's Nazir each bought a lot.

5. It appears that the Landholders' and Commercial Association are not favorable to the suggestion of the Upper Assam Tea Planters' Association, that the Native Officials should be restrained from holding lands under tea cultivation, though they think the reasoning of the Tea Planters perfectly logical, that there can be no argument against gentlemen of education engaging in such pursuit which would not apply with at least equal force to Natives holding appointments under them. It seems to me, however, that an opinion in favor of Native Officials holding land, while the privilege is interdicted to their European superiors, may be held without breach of logic. The official position of the two classes

is essentially different, and the interdict is mainly founded on considerations of official position.

6. Now, however, that the question of Native Officials in Assam holding lands for the cultivation of Tea has been raised, it had better be set entirely at rest by an authoritative decision from the Government. Their interference is the more necessary because I find that the late Officiating Commissioner, Major Agnew, issued a Circular Order, copy of which is herewith appended, a few days before my return to the Province, peremptorily forbidding "each individual Amlah and Clerk, Revenue, Judicial, Fouzdary, and Educational," from engaging in Tea-planting, and while I hesitate about giving effect to this order, I am unwilling to supersede it without the sanction of superior authority.

7. Well founded objections may be made to the allowing Native Officials to hold Tea lands, abuses may spring out of their doing so, but the fact is whatever a man has a license to do may give rise to objection or abuse.

8. I beg to refer the Board to the correspondence noted in the margin. I recommended therein that no Chowdry be permitted to purchase waste lands so long as he is entrusted with the

Captain Lloyd's letter No. 140, dated 14th March 1862.

My letter to Board, No. 199, dated 27th March 1862.

Board's answer, No. 45, dated 28th April 1862.

administration of a Pergunnah, to which the Board replied that "any Officer who neglects his duties to attend to his private property will of course be liable to be displaced," but "they consider any general prohibition unnecessary." Now, most certainly, if a general prohibition is not necessary in the case of Mouzahdars, much less is it necessary in the case of the various ministerial Officers, who can be much more closely supervised by the Officers under whom they serve, and who have nothing like the scope or the opportunity for abuse that a Mouzahdar has.

9. I must insist upon it that there is room for Tea Planters of every kind and degree in Assam, and by whatever agency the actual cultivation of Tea may be extended, opportunities for the employment of English energy and English capital will increase with the extension. I may hope therefore that a day may arrive when Tea will be as strenuously and universally cultivated by the people of Assam on their own account as Rice is by the people of Arracan, and with this idea, I cannot help doubting whether the desire of the Amlah to have their Tea gardens should be restrained rather than encouraged. They have among them some of the most influential men in the Province, influential by birth, not by office merely, for the best families send their sons to our Courts, and where these lead, their countrymen will follow.

From MAJOR W. AGNEW, Officiating Commissioner of Assam, to all Deputy Commissioners of the Division, Assam,—(No. 8, dated the 26th January 1864.)

As I am quite satisfied that Native Officials can no longer be allowed, any more than their European brethren, to engage in Tea-planting or other trading operations in the District where they are employed without its leading to many abuses and that it is an absurd anomaly, moreover, to permit them to do so, I have the honor to request you will ascertain and report to me how far each individual Amlah and Clerk in your

District, Revenue, Judicial Fouzdary, and Educational, both of your own Office and those of your subordinates, is concerned in such transaction, making a note against each man's name to show whether he agrees to dis sever himself from trade or prefers being transferred to another District. You will explain to all most clearly and distinctly, if you please, that I will not be put off by a pretended disconnection, but will insist upon its being a *bona fide* one, and will see, too, that it is so by holding Deputy Commissioners responsible that no one on their Establishment evades my order by any subterfuge whatever.

From A. C. CAMPBELL, Esq., Personal Assistant to the Commissioner of Assam, to the Secretary to the Board of Revenue, Lower Provinces,—(No. 198, dated the 6th April 1864.)

In continuation of this Office letter to your address, No. 192 of the 31st ultimo, I am directed by the Commissioner to append, herewith, a very pertinent Report from the Deputy Commissioner of Seeksagur on the question of permitting Amlahs to engage in the cultivation of Tea, and to which the Commissioner solicits the Board's earnest attention.

From LIEUTENANT J. GREGORY, Officiating Deputy Commissioner of Seeksagur, to LIEUTENANT-COLONEL H. HOPKINSON, Agent, Governor General and Commissioner of the Assam Division,—(No. 909, dated the 29th March 1864.)

WITH reference to your Office Circulars No. 8 of the 26th January, and No. 16 of the 10th instant, I have the honor to enclose a List of the Native Officers employed in my Courts and those subordinate to me who are engaged in Tea-planting.

2. Up to this time I have experienced no inconvenience or miscarriage of justice consequent on Amlahs being engaged in the cultivation of Tea, nor do I anticipate that any such would arise generally, and it would be easy to deal with exceptional cases.

3. On the other hand it would always be difficult to prevent the Amlah from holding land and growing Tea under the names of other people.

4. The advantages of this indulgence would be that the Native Officials, who are, for the most part, men of good family, and who, in consequence of the abolition of domestic slavery and the great increase in the rates of wages, have fallen into difficulties, would have an opportunity of extricating themselves from debt and being men of influence amongst their countrymen. Their example would be likely to stir up that portion of the lower classes which would not, under any circumstances, work for European Planters.

5. European Planters already complain of the difficulty of obtaining local labour, and many in despair have ceased to rely on it and are importing largely from Lower Assam and Bengal. The Natives who would engage in Tea-planting would not be able to go to the expense of importing labour and would have to depend on local labour, and would consequently direct all their energies to developing its resources, and being men of influence would be much more likely to succeed in prevailing on their countrymen to work than strangers.

From J. GEORGEHAN, Esq., Under-Secretary to the Government of Bengal, to the Secretary to the Board of Revenue, Lower Provinces,—(No. 109T., dated the 10th May 1864.)

I AM directed to acknowledge the receipt of your letters Nos. 145 and 167, dated the 15th and 23rd ultimo, and in reply to say that the Lieutenant-Governor entirely agrees in the opinion expressed by the Board. Major Agnew's order prohibiting Native Officials purchasing waste lands should be withdrawn. If not otherwise objectionable, it would be opposed to the orders of the Right Hon'ble the Secretary of State as expressed in paragraph 7 of his Despatch No. 22, dated the 10th August 1861, desiring that no additional restrictions should be placed on the possession of land by Uncovenanted Officers of Government.

2. The only suggestion made by the Landholders' and Commercial Association was that the first instalment of 10 per cent. should be paid at the time of sale, and that on failure to pay, the lot should be forthwith put up again. On this point, as the subject has not been noticed by the Board, I am to request that the Lieutenant-Governor may be favored with their opinion with reference not only to Assam, but to all places in which waste lands are sold under the Rules in force.

From R. B. CHAPMAN, Esq., Secretary to the Board of Revenue, Lower Provinces, to the Under-Secretary to the Government of Bengal,—(No. 205, dated the 19th May 1864.)

WITH reference to paragraph 2 of your No. 109T., dated 10th instant, I am desired by the Board of Revenue to remind the Government that Rule 8 of the Supplementary Rules for the sale of Waste Lands, submitted for approval with the Board's No. A., dated 26th September 1862, contained the provision suggested by the Landholders' and Commercial Association, but it was struck out by the Government for the reasons stated in Government order No. 2315, dated the 9th October 1862.

2. The Board are not prepared to recommend the introduction of the amendment into the Rules at present, having seen nothing in the working of the Rules to make them consider it necessary.

From the HON'BLE A. EDEN, Secretary to the Government of Bengal, to the Secretary to the Board of Revenue, Lower Provinces,—(No. 866T., dated Darjeeling, the 18th June 1864.)

IN reply to your letter No. 205, dated the 19th ultimo, I am directed to say that, as the abuse which the proposal of the Landholders' and Commercial Association was designed to meet has been shown to have no real existence, it appears to the Lieutenant-Governor that there is no necessity for carrying out this suggestion by the introduction of the proposed amendment in the Supplementary Rules for the sale of Waste Lands.

From J. BECKWITH, Esq., Secretary to the Landholders' and Commercial Association, to the HON'BLE A. EDEN, Secretary to the Government of Bengal,—(dated the 1st July 1864.)

I AM directed to acknowledge receipt of copies of two letters from the Secretary to the Government of Bengal to the Secretary to the Board of Revenue, numbered and dated respectively No. 109T., the 10th May, and No. 866T., the 18th June, forwarded to this Association with reference to my letter of the 11th February last.

In the letter of the 18th June it is said that "the alleged abuse which the proposal of the Landholders' and Commercial Association was designed to meet has been shown to have no real existence."

The Committee direct me to say that they have always endeavoured to avoid taking up the time of Government unnecessarily; that they always exercise caution in accepting the representations

that are made to them ; but they are aware that, in dealing with representations from distant Districts, they are liable to be misled or to interpret incorrectly the statements made to them.

As the letter quoted is a bare statement that the abuse brought to notice "has no real existence in fact" without any explanation or reference to the manner in which it has been so shown, the Committee cannot judge of the correctness of the conclusion come to by Government, and they think it due to themselves to explain the grounds on which the allegation was made.

The abuse complained of was that certain Native Officials of the Courts in Upper Assam had run up the price of waste lands put up to auction without intending to purchase, and without being in a position to make good the payment of the cost of the land.

This allegation was based on information received from gentlemen in Assam, and I am now directed to send copy of a letter from Mr. W. Wells to Mr. Maitland, in which the name of one Native Officer so behaving is given as well as the date of the sale and the number of the lot bid for.

Mr. Wells states that Tilli Churn, Dewannee Nazir, bid against Mr. Jenkins for Lot 28, put up to auction at Seesagur on the 2nd December last, and that Mr. Jenkins having stopped bidding the lot was knocked down to Tilli Churn at Rupees 19 per acre.

This Mr. Wells states of his own knowledge ; and he says further, on the authority of Mr. Jenkins, that Tilli Churn followed the latter to his factory, a distance of 25 miles, to entreat him to take the land off his hands, as he had not the means of paying even the first instalment.

It is further stated that, failing to move Mr. Jenkins, as the Committee understand, the Nazir got leave of absence and went off to Benares to escape the consequences of his rashness.

It appears to the Committee that the letter in question goes far to prove the abuse complained of to have "had a real existence," and in the absence of all knowledge of the evidence on which the contrary is declared by Government, they can only submit the facts in justification of the representation made in my letter of the 11th February.

It will be seen from the date of Mr. Wells' letter that it was not in the hands of the Association when my letter was written, but the facts had been vouched for, and Mr. Maitland had undertaken to get the particulars in a form that admitted of their being made use of.

From WILLIAM WELLS, Esq., to WILLIAM MAITLAND, Esq., Calcutta,—(dated Khawong, the 21st February 1864.)

WITH reference to your remarks on the subject of the Amlah bidding for lands, you are perfectly at liberty to give both Mr. Jenkins' and my names as the authority for stating that "Tilli Churn, Dewannee Nazir," bid at the sale which was held at Seesagur on the 2nd of December last for Lot 28 to the extent of Rupees 19 an acre, at which price Mr. Jenkins dropped him: Mr. Jenkins states that a few days after the sale this same Tilli Churn came to him at his factory to the distance of about 25 miles and entreated him, in the most abject manner, to take the land off his hands, stating positively that he was a ruined man and that he had not the means of paying even the first instalment; and what makes this particular case a great deal worse, this same man

has in a hurry taken leave and gone off to Benares, thereby being allowed by the Collector to escape from the consequences of his rashness: this fact is notorious. In short the way that the sales are conducted, particularly the last one, have disgusted every body.

With respect to the man, or rather men who called out that their bidding was for the benefit of Government, it was impossible to know who the parties were, as, instead of standing forward and making their bids properly, they screened themselves behind others standing in the crowd. Whether Lieutenant Gregory heard the people cry out about bidding for the benefit of the Government or not I can't say, but as I was sitting close to him and heard the words distinctly, the conclusion that I came to is he ought to have done so, but this will be now put a stop to no doubt. At the same time that the Debrooghur Tea Planters' Association sent the papers I wrote you about to the Landholders' Association they made a direct reference, through the Commissioner, to Government, and I now send you copies of the correspondence.

Memorandum from R. B. CHAPMAN, Esq., Secretary to the Board of Revenue,—(No. 361, dated the 19th September 1864.)

COPY forwarded to Government with reference to Government Order No. 2517, dated the 14th July 1864. The Board of Revenue consider the explanation submitted to be most satisfactory, and they recommend that the papers be published.

Memorandum from COLONEL H. HOPKINSON, Commissioner of the Assam Division,—(No. 67, dated the 5th September 1864.)

COPY forwarded to the Secretary to the Board of Revenue with reference to his endorsement No. 102, dated 22nd July. The undersigned at the same time begs to observe that he considers Lieutenant Gregory's explanation quite satisfactory.

From LIEUTENANT JOHN GREGORY, Assistant Commissioner, to the Personal Assistant to the Commissioner of Assam,—(No. 126, dated the 16th August 1864.)

IN answer to your letter No. 24 of the 4th

instant, and with reference to the correspondence noted in the margin and herewith returned, I have the honor to submit, for the information of the Commissioner, the explanation called for.

From Landholders' and Commercial Association, to the Secretary to the Government of Bengal, dated 1st July 1864.

From W. Wells, to W. Maitland, dated 21st February 1864.

Memorandum No. 2517, from Junior Secretary to Government of Bengal, to Board of Revenue.

Memorandum No. 102, from Board of Revenue, to Commissioner of Assam.

2. The statement contained in the 5th paragraph of the letter from the Landholders' Association to the Secretary to the Government of Bengal, dated the 1st July 1864, that Native Officials of the Court in Upper Assam had run up the price of waste lands put up to auction without intending to purchase and without being in a position to make good the payment of the cost of the land is incorrect; their having purchased land, and having up to this time regularly paid the instalments of the purchase money of it, and the interest on the remaining portion with as great punctuality as any of the European Planters is, I think, an

incontrovertible proof of its being so. Up to this time I have not heard of one single defaulter, and a reference to Register B. of the Waste Land Series will, I am confident, bear out my assertion.

3. Trelochurn Sorma, Nazir of the Moonsiff's Court, bought at sale of the 2nd December, Lot 28 at the rate of 19 Rupees per acre. The auction was a public one. I had received no prohibition against allowing Government employes to bid at these sales, nor did I know of any order against it, (Section XV. of Regulation II. of 1793 only applying to Revenue Amlah,) and he in every way fulfilled the conditions of the sale, so that I did not consider myself justified in preventing his competing.

4. Whether Trelochun ever offered this land to Mr. Jenkins or not I am unable to say.

5. During my absence in the interior of the District the Extra Assistant Commissioner granted Trelochun leave to accompany his friends on a pilgrimage to bathe in the Ganges, for which purpose numbers of people left the Province about that time. I was unaware, till he had started, that leave had been granted to him; but that he did not go "to escape the consequences of his rashness," as assumed by the Secretary to the Landholders' Association, is abundantly proved by his having, when due, paid into Court the first instalment of the price of his Grant and the interest on the remaining portion.

6. Adverting to Mr. Wells' letter of the 21st February 1864, it is only necessary for me to touch on the statements made in the latter paragraph, having disposed of those in the former in noticing the complaint of the Secretary of the Landholders' Association which is founded on it. With reference to the latter, it appears from its tenor to refer to some previous communication, and the charge made in it is not so clear as it would have been had the former letter been forwarded with it; but I beg to state without reservation that I took no bid without seeing the person who made it, and so careful was I (foreseeing that some reference would take place about the sale) that I caused Trelochun and another Amlah who were the principal, if not the only Native bidders at that sale, to come to the front to compete. Further, even after this lapse of time, I have no hesitation in saying that no bid was taken from, nor the price of any lot enhanced by the bidding of, any person who said "that he was bidding for the benefit of Government;" nor is it reasonable to be supposed that, with the representatives of three great Tea Companies (the Assam, Jorehat, and Golaghat) present, an abuse so detrimental to the interest of their employes would have been allowed to pass without an immediate and direct appeal to my superiors.

7. There was a large concourse of European Planters at the sale, which was the first held in the District; but I heard no complaints from any of them of the manner in which it had been conducted, though many were bitter and angry at Amlahs being allowed to compete, and this bitterness was only natural when it is considered that they had come to the sale with a mutual understanding that they would not bid against one another, and that the competition of Natives was unforeseen and obliged them in many instances to pay a much higher rate than the upset price at which they had relied on getting their lots. This feeling was so strong that at a subsequent sale not only the Amlahs' bidding was objected

to, but one Planter protested against a "Marwar" trader from the bazar, who was bidding against him, being allowed to compete.

8. I am in hopes that this explanation will prove satisfactory to the Commissioner, and that he will do me the credit to believe that in the conduct of this sale I endeavoured to maintain the strictest impartiality to both European and Native bidders.

From S. C. BAYLEY, Esq., Junior Secretary to the Government of Bengal, to the Secretary, Landholders' and Commercial Association,—(No. 3894T., dated Darjeeling, the 5th October 1864.)

I AM directed to acknowledge the receipt of your letter of the 1st July last, explaining the grounds on which it was alleged that certain Native Officials of the Courts in Upper Assam had run up the price of waste lands put up to auction without intending to purchase, and without being in a position to make good the amount of their bids.

2. In reply I am to forward, for the information of the Association, the accompanying copy of a memorandum, with its annexures on the subject, from the Board of Revenue, No. 361, dated 19th ultimo.

Measures adopted for arresting the progress of Epidemic Fever.

From the HON'BLE A. EDEN, Secretary to the Government of Bengal, to the Honorary Secretary to the British Indian Association,—(No. 1487T., dated Darjeeling, the 12th July 1864.)

WITH reference to your letter of the 18th March last, I am to forward, for the information

of the Committee, a copy of the orders* issued on

* No. 1479T. of this date. the Report of the Commission appointed to enquire into the causes of the Epidemic fever raging in the Districts of Hooghly, Burdwan, Naddea, Jessore, and the 24-Pergunnahs, and to say that though the Report of the Commission seems to establish the fact that miasma is the primary cause of the disease, yet other causes of a removable nature have certainly aggravated it, and not improbably imparted to it its Epidemic character.

2. The measures taken by Government, with the assistance of the public, for relieving the sick and preventing the further spread of the disease are shown to have been successful as far as they went, and to have failed only from their limited operation owing to the restricted means and agency at the disposal of the Government for the purpose. These measures will be persevered in, and the Government will be prepared to assist the inhabitants of any Town or Village, who show a disposition to help themselves, in carrying out measures of sanitary improvement and in removing the causes of disease indicated by the Commission.

3. It will no doubt occur to the Members of the Association that the influence of Zemindars may be exerted most beneficially and most profitably to themselves in persuading the villagers to adopt habits of cleanliness and order, and to make some exertion to remove the sources of disease which lie at their very doors and render them a prey to its ravages.

From BABOO JOTENDRO MOHUN TAGORE, Honorary Secretary to the British Indian Association, to the Hon'ble A. EDEN, Secretary to the Government of Bengal,—(dated the 26th September 1864.)

I HAVE the honor, by direction of the Committee of the British Indian Association, to acknowledge the receipt of your letter dated the 12th July last, together with a copy of the orders of His Honor the Lieutenant-Governor on the Report of the late Commission appointed to enquire into the causes of the Epidemic fever raging in the Districts of Hooghly, Burdwan, Nuddea, Jessore, and the 24-Pergunnahs.

The Committee are glad to be able to testify to the labour, research, and ability with which the Commission conducted the investigation. They observe that, in the opinion of the Commission, miasm, arising from obstructed and defective drainage, is the primary cause of the disease wherever it has in the affected Districts assumed an Epidemic character. This conclusion, they are happy to perceive, confirms the impressions which they derived from their knowledge of the country through which the Epidemic had been raging, and which they brought to the notice of Government in previous correspondence.

It may afford satisfaction to His Honor the Lieutenant-Governor to learn that the recommendations of the Commission to remove obstructions to free outlet of water, which were lately adopted in the populous Village of Dwarbaceenee, in the District of Hooghly, owned by a Member of the Association, have already been attended with the desired result, as the village, since the improvement effected in its drainage, has been for the most part exempt from the disease, whilst a neighbouring village is suffering from it.

The Committee note with satisfaction that, as a preliminary measure, His Honor has appointed a Special Engineer Officer for the purpose of taking the levels of the country affected by the Epidemic, of ascertaining how far the drainage has been intercepted by Railways and roads and other obstructions, and what measures can be taken to remove these obstructions or rectify their effects, and of submitting a general scheme for improving it wherever it is defective.

The Committee sincerely and earnestly hope that, when the Report of the Special Engineer is received, His Honor will see the propriety of speedily organizing such effective measures as he may think fit for the purpose of remedying defects of village drainage, to which the Commission so emphatically trace the germs of the fatal disease.

The Committee take leave to inform His Honor that, on receipt of the letter under acknowledgment, they caused to be written in Bengalee a brief account of the measures which the Government have adopted since the outbreak of the Epidemic was first brought to its notice by this Association, with a view to arrest the progress of the disease and to alleviate the suffering of the sick. In that Circular they have also taken occasion to impress on the inhabitants of the affected villages the importance of observing the sanitary Rules contained in the Report of the Commission, and their obligation to co-operate with the Officers of Government in promoting conservancy improvements in their respective villages. The Committee need hardly add that they will not fail to take an early opportunity to circulate extensively copies of this Bengalee address among the inhabitants of the affected Districts.

From J. GEOGHEGAN, Esq., Under-Secretary to the Government of Bengal, to the Honorary Secretary, British Indian Association,—(No. 4273, dated the 17th October 1864.)

I AM directed to acknowledge with thanks the receipt of your letter dated the 26th ultimo, communicating the views and proceedings of the Association in connection with the Report of the late Epidemic Commission, and the orders passed thereon, and in reply to say that the Lieutenant-Governor anticipates the best results from the measures the Association have adopted for impressing on the inhabitants of the affected villages the importance of observing the Sanitary Rules suggested in the Report of the Commission. The improvement of the drainage of villages is obviously the duty of the Zemindar, and the Association should bring their influence to bear on the Zemindars of these villages, with a view of inducing them to undertake what is no less a palpable advantage to themselves than a positive duty to their tenants.

From J. GEOGHEGAN, Esq., Under-Secretary to the Government of Bengal, to the Commissioner of the Burdwan Division,—(No. 4274, dated the 17th October 1864.)

I AM directed to forward, herewith, copy of a letter from the Honorary Secretary to the British Indian Association, dated 26th ultimo, and, with reference to the assertion that the improvements in drainage effected in the Village of Dwarbaceenee, in the District of Hooghly, have, to a great extent, exempted it from the ravages of the Epidemic fever, I am to request that you will submit a full report on the measures that were adopted, and on the amount of success which has resulted from them.

Papers regarding the practice of Swinging at the Churruck Festival.

Extract, paragraphs 8 to 12, of a Despatch from the Right Hon'ble the Secretary of State for India, to His Excellency the Governor General of India in Council, No. 2, dated the 24th February 1859.

PARA. 8.—In presenting the Petition for a Legislative enactment to suppress cruel and inhuman practices at the Churruck Poojah, the Member for the Lower Provinces of Bengal referred to an opinion of the Court of Directors to the effect that endeavours for the suppression of the cruelties of the festival should be based on the exertion of influence rather than upon any act of authority. In accordance with this view Her Majesty's Government would be disposed to leave the remedy, as suggested by the Lieutenant-Governor of Bengal, to the progress of Education and its legitimate effects were any hope held out of the discontinuance within a reasonable time of these public exhibitions of cruelty. Of this, however, there seems to be but little prospect so long as those who engage in them are left in ignorance of the light in which such exhibitions are viewed by the Government.

9. In the Presidency of Bombay the practice of hook-swinging has been suppressed by order of the Government, and (according to the reports of the District Magistrates) without any dissatisfaction on the part of the general population.

10. In the Madras Presidency the sense of Government has been marked by the insertion, as opportunity occurred, in Sunnuds for lands appropriated to the support of religious festivals, of a clause declaring that forfeiture will follow any repetition of the practice of hook-swinging, and in several parts of the Presidency the practice has entirely ceased.

11. It is in Bengal chiefly that the revolting ceremonies connected with the festival most extensively prevail, and that the efforts made to discountenance them have been attended with the least success.

12. Although the suppression of a cruel and demoralizing public spectacle is a fit subject for legislation, it is not the intention of Her Majesty's Government, in the foregoing remarks, to press upon you any immediate legislative interference in the matter. It appears to them, however, that the Lieutenant-Governor of Bengal might be instructed to take advantage of such opportunities as may occur of discountenancing the practice as far as in his power. Possibly a provision, hostile to the cruelties of the festival, may be inserted in leases of Government lands, or of lands under the management of Government Officers; the sympathies of influential landed proprietors and other members of the native community may be enlisted in the same direction; and other means, such as will often be found in the course of official administration, may also be taken of making known the views of the public Authorities in regard to such exhibitions without causing alarm as to the intentions of the Government, or producing dissatisfaction in the minds of the people. Should such measures fail to produce any perceptible diminution of the practice it will then be necessary to consider whether the Government is not called upon to take more decided steps for putting an end to observances so flagrantly opposed to the dictates of common humanity.

From E. H. LUSHINGTON, Esq., Secretary to the Government of Bengal, to the Secretary to the Government India, Home Department,—(No. 210, dated Head Quarters, the 11th January 1860.)

Commissioners of Divisions as noted on the margin.

2. The question of Endowments, I am directed to state, has been separately reported on in my communication No. 6998, dated the 8th ultimo.

Minute by the Lieutenant-Governor of Bengal,—(dated the 31st December 1859.)

1. In the Patna Division, and generally in the Province of Behar, it appears that Churruck Swinging is not generally practised, and that where it has happened to occur it has been owing to the presence of a large assemblage of Bengalees. There can be no difficulty in so arranging that the practice shall not recur in Behar.

2. But for this purpose I do not think an order to every Police Darogah, such as Mr. Fergusson advises, would be the most prudent method to adopt. That would be to call great attention to the prohibition where it is quite unnecessary even to mention the subject; to make people think of Churruck Swinging who have never seen it, or heard of it before; and to make a display which, perhaps, may be misunderstood, and may cause irritation, when no legitimate object is to be served by so doing. It will be enough for the Commissioner, whilst he does nothing where nothing is required to be done, to intimate quietly to those Magistrates in whose Districts there is any likelihood of a Churruck Swinging exhibition being got up, that as a measure of Police such exhibitions are not to be allowed. The Magistrates, whom he may address specially in this manner, will act in the same quiet spirit, saying and doing nothing, except when and where something is practically required to be said or done.

3. A discretion will be given to the Commissioner of Bhaugulpore to act in the same manner in regard to the Behar portion of his Division and in the Sonthal Districts.

4. In the Chota Nagpore Districts it would seem that what has been effected in Singbhoom, by inducing the Zemindars to put an end to the practice, (for which good work Lieutenant Birch deserves great praise, which will be duly communicated to him,) may be affected in other Districts in the same manner. The Commissioner will be addressed in this sense, and I shall have an opportunity of conversing with him on the subject in the course of my tour.

5. It will be explained to these, and to the other Commissioners generally, that wherever Churruck Swinging is not a regular established custom, the refusal of the Police to allow an occasional exhibition of the sort is not unreasonable as a local measure for the preservation of order and decency. And on this ground, in such places, the disallowance may be justified, though no prohibitory law exists. But with reference to the Secretary of State's Despatch it will be quite proper, if the question is raised in such places by applications for permission to swing, or by attempts to swing unsupported by established custom, to explain fully the disapproval with which Government, supported by all intelligent and enlightened men of all classes, views this disgusting exhibition.

6. In Assam, Arracan, Darjeeling, and Cachar nothing needs to be done in the matter.

7. The Bengal and Orissa Districts remain, where the practice is common and established.

8. A copy of the letter to the Commissioner of Patna will be sent to the Bengal Commissioners to show the general view of Government on the subject, with a copy of the printed abstract of Reports for information.

9. It will be remarked to these Officers that where, as in Bengal generally, the swinging is a regular and established custom, it could not be universally prohibited by a mere Police order, unsupported by legal sanction, even if there were no other objections to such a measure, under such circumstances. But there seems good reason to believe that the practice is beginning to decrease materially, probably as the effect of some real mental progress amongst the gentry and educated classes of Bengal. If this be so, a Commissioner whose character inspires general respect, and whose influence is strengthened by a proper degree of intercourse with the leading native gentlemen of his part of the country, acting with his District Officers in the matter, may have it in his power very effectively to accelerate the general abandonment of the practice. He may have many occasions of impressing upon great Zemindars the high estimation in which Government will hold such of their number as may take such order in this matter as will have the effect of inducing the people on their lands voluntarily to give up the practice. It should always be explained that our objections to the practice do not arise from any wish to interfere needlessly with native habits, merely because they are not agreeable to our own ideas, but from a conviction, which all enlightened men, Native and European, share with us, of the vile nature of such public exhibitions of torture, even though the torture may be little more or no more than apparent.

10. Wherever the practice falls into recognized disuse, the prevention by a Police order of its revival will be easy and unobjectionable.

11. The Commissioners of Bhaugulpore and Chota Nagpore will act in this manner where the course prescribed to the Commissioner of Patna is inapplicable.

12. All Commissioners will be directed to notice the Churruck Swinging question in their Annual Reports.

13. I do not recommend that more than I have now done be done at present. I am not hopeless of a visible and rapid decay of the practice soon commencing. Indeed, some of these Reports go to show that the decay has for some time back commenced.

14. It does not appear to me that when the truth of the case is calmly considered, there is anything in Churruck Swinging *in itself* such as to demand legislative interference. It certainly involves, as actually practised, no risk of life, limb, or health. What degree of pain it inflicts on the actor may be to some extent disputed, but certainly it inflicts no severe degree of pain, because Churruck Swingers, we know, consider themselves very ill-used men, and submit formal complaints to the Authorities when prohibited

from earning two or three rupees and some sweetmeats by enduring it. If then any set of fanatics were to inflict the same pain on themselves, or on each other, by way of religious discipline, in private, I apprehend that no legislature would interfere in the matter. It is the public spectacle that is shocking, and may be degrading. But it is so because it is an outward, and as it were triumphant sign of a most degraded state of internal religious sentiment on the part of the actors and spectators. Yet, in this, Churruck Swinging does but partake of the essential baseness of the ascetic principle, in whatever degree or manner, and in whatever part of the world it shows itself. In itself it is not nearly so bad, for example, as keeping the hand closed till the nails grow out of the back of it, a sort of self-torture which is practised, and could not be prevented by Police regulations. And where the custom of Churruck Swinging is inveterate there are none to be shocked, and probably very few capable of being degraded by the spectacle. The only reason for the prevalence of these barbarities in Bengal, Orissa, and some parts of the Madras Provinces is the prevalence, in the same places, of the lowest of the Hindoo sects or persuasions.

15. The real evil being moral, the compulsory cessation of any particular outward observance connected with it is no substantial remedy. In this view there is more of progress in the natural cessation of the practice in a single Pergunnah than in its forcible prevention throughout a whole Province. The opinions of those who believe that this real progress has commenced, and would be endangered by a measure which would not touch the real evil in India, whatever show it might make elsewhere, seem to me well worthy of consideration.

16. The President in Council will perceive that I have given orders which will bring the subject annually under notice; and I hope, by working through the leading men of the people themselves, without irritating or alarming any one, that progress may be made in the right direction, and this, if not a very showy work, will be, so far as it goes, true progress.

I AM directed to acknowledge the receipt of your letter No. 133, dated the 11th ultimo, and in reply to state that the President in Council entirely concurs in the view taken by the Hon'ble the Lieutenant-Governor on the subject of the measures to be adopted for suppressing the Churruck Poojah in the Lower Provinces.

The 26th October 1864.—The following Notification issued by the Government of India in the Home Department is re-published for information :—

No. 5027.—The 26th October 1864.—The following Rules for Burial Grounds in the Diocese of Calcutta have been approved by the Governor General in Council, and are published for general information :—

RULES FOR BURIAL GROUNDS IN THE DIOCESE OF CALCUTTA.

I. The Chaplain of the Station has the care of the General Cemetery; points out to the proper Officer when the walls need repairing; weeds, grass, or jungle, clearing away; and the remains of decayed tombs removing. It is his duty to see that the Cemetery is kept in proper order. In the absence of the Chaplain, the Officer who repairs the walls has the care of the Cemetery.

N. B.—These Rules apply, in places where there is no Chaplain, to Ministers of the Additional Clergy Society, and to any other Clergymen who are appointed to the charge of English Congregations and also receive part of their salary from Government.

II. The Chowkeedar in charge is on the Church Establishment, and is paid by Government through the Chaplain, by whom he is appointed or dismissed.

III. The Chaplain buries Christians of all denominations whose friends desire his services, using always the service of the Church of England. In all Military Stations a portion of the Cemetery is set apart, by the orders of Government, for the use of Roman Catholic Congregations. Also, if there are one or more bodies of Christians at a Station not of the Church of England, nor of the Church of Rome, a portion of the Cemetery is to be appropriated for their joint use should they desire it. These portions thus set apart are not to be fenced or walled off from the rest of the Cemetery, but simply divided off by a pathway; and are to be added to the existing Cemetery, or reserved from it, according as the Cemetery has or has not been consecrated according to the rites of the Church of England. The whole Cemetery thus divided is to be surrounded by a wall, (*see Government Order, Public Works Department, 12th April 1861.*) to have but one gate of entrance, and to be under the care of the Chaplain for the purposes already specified in Rule I. (*see letter from Government of India to Archdeacon, No. 648, dated 4th April 1861.*) The key should be kept by the Chowkeedar under the Chaplain's direction, that access to the ground may be readily obtained by the several parties concerned.

IV. The Chaplain has the power, with the advice of the Executive Engineer, or Officer who repairs the walls, to appoint, and remove, if necessary, a person as Undertaker, who will contract for the digging and filling in of all graves, and building pukka graves, up to the level of the ground, at rates to be decided upon by the Chaplain and Executive Officer, in conformity with any scale which may already be in use in the Regiment at the Station.

V. Till a suitable person can be found to take this office, or during a vacancy in the office, the Executive Engineer, or the Magistrate, or other Civil Officer of the District, is to be asked to appoint some man of his own Establishment to take the duty temporarily.

VI. The Undertaker shall engage, if the Chaplain think it necessary, to have one or more graves and coffins always ready in case of sudden emergencies, and the graves kept covered by a frame-work of boards provided from the Executive Engineer's Department, and to have the graves dug at least six feet deep where it is practicable. The name and residence of the Undertaker, and his scale of charges, are to be posted up at the entrance of the Cemetery for the information of the public. He is to keep a plan of the Church of England portion of the Cemetery, with references written upon it, in a book in which the names of parties interred are recorded, this plan and book being kept with the Church Registers.

VII. Monuments may be erected by any party with or without the services of the appointed Undertaker. The Chaplain must approve of the inscription, and also of the

dimensions of any monument to be erected in the Church of England portion of the Cemetery. The dimensions must not be so large as to occupy much space. Brick monuments are to be discouraged as soon coming to decay in this country; stone or even wooden ones are much to be preferred; also pukka monuments over cutcha graves are prohibited, as they almost invariably fall in during some following rainy season. The inscription should be submitted for approval before it is cut, as parties have been known to become liable to great expense by neglecting this precaution.

VIII. The Chaplain should communicate with the friends of the deceased when a monument needs repairing, and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry, or be inserted in the wall, by the Government Officer.

IX. Every reasonable effort should be made by the Chaplain not only to keep the Cemetery in decent order, but to preserve its character as the resting place of the remains of departed friends, by suggesting appropriate designs for monuments, and by planting the ground with suitable trees. The money procured by the sale of the grass may be laid out in such improvements.

X. The Cemetery should be inspected once in a half-year by the Chaplain, in company with the Executive Engineer, the plan and book kept by the Undertaker being also examined, and a report made to the Archdeacon, and recorded in the Ecclesiastical Record Book of the Station, and also in the Engineer's Office.

XI. It is desirable that Officers commanding Regiments or Detachments should be instructed to cause a report to be made to the nearest Civil Officer of graves dug for Soldiers on march, that measures may be taken for their effectual protection and preservation.

XII. At Stations where there is no Chaplain or other Clergyman in the pay of Government, the Magistrate or Deputy Commissioner, and at Out-Stations any Subordinate Officer to be nominated by him, will have charge of the Cemetery, and see that it is kept in proper order and repair.

XIII. The Chowkeedar of the Cemetery in such Stations will be appointed, or dismissed, by the Officer in charge, and will be paid by the Government through him.

XIV. The Chowkeedar will keep the key of the Cemetery under the direction of the Officer in charge.

XV. The Officer in charge of the Cemetery will perform all the duties assigned to the Chaplain by Rules IV., V., VI., VII., VIII., and IX., with the exception of the approval of the inscriptions, which are to be forwarded to the Archdeacon, and not cut till his sanction is obtained.

XVI. Commissioners of Divisions should inspect Cemeteries thus placed under the care of Magistrates or Deputy Commissioners in the course of their annual tours, and should bring to the notice of the Local Government any instances of Cemeteries which are negligently kept, or which the Officers in charge may have allowed to fall into a state of bad repair or disorder. These Cemeteries are, however, as much subject to the visitations and supervision of the Bishop and Archdeacon as those at Military and other Stations to which Chaplains and Ministers in the pay of Government are appointed.

XVII. Commissioners are also authorized to visit Cemeteries under the care of Chaplains and other Ministers, to make suggestions to the Clergyman in charge, and, if deemed necessary, to report to the Archdeacon regarding their condition.

XVIII. The above Rules do not apply to the Presidency Cemeteries, which have Rules of their own.

By Order of the Government of India,

E. C. BAYLEY,
Secy. to the Govt. of India.

A. EDEN,
Secy. to the Govt. of Bengal.

PROSPECTUS.

1. A Show of Live Stock and Agricultural Produce for the Division of Bhaugulpore will be held at Bhaugulpore on the 23rd, 24th, 25th, 26th, and 27th of January 1865.

2. For the purposes of the Show Government has given the sum of Rupees 3,000, and more than double this sum will be raised by public subscription.

3. The Prizes detailed below are offered for competition to persons residing or holding property within the Division of Bhaugulpore; but any Prize may be withheld if, in the opinion of the Judges, the Live Stock or Produce exhibited is not of such quality as to merit the Prize.

4. Arrangements will be made for the conversion of Prizes of the value of Rupees 20 and upwards into medals, cups, plates, &c., with suitable inscriptions, should the holders of such Prizes prefer to receive them in such forms.

5. Exhibitors will be required to submit a list of Live Stock and of Agricultural Produce intended for exhibition not later than the 1st of January either to a District Committee or to the Divisional Committee. Live Stock must be forwarded under the charge of a person appointed by the Exhibitor, and all articles intended for exhibition must be forwarded to Bhaugulpore not later than the 20th of January.

6. Live Stock and Produce must in all cases be distinguished by a label specifying the nature of the article contributed, the name of the Exhibitor, and the part of the country from which the animal or produce (as the case may be) comes.

7. Any person desirous of exhibiting Live Stock, but unable to afford the expense of transmission to Bhaugulpore and maintenance while there, may be assisted with money on application to be made to the Committee of the District in which he may reside.

8. Arrangements will be made by the Divisional Committee to enable Exhibitors and their servants to purchase, at rates to be fixed by the Collector, provisions, firewood, forage, &c., close to the place where the Show is to be held.

9. Exhibitors will be admitted to the Show Yard free of charge.

10. From non-exhibitors an entrance charge of 1 Rupee a person will be taken on the first and on the last day of the Show, of two annas on the second, and of one anna on the third day. 12. The Prizes will be distributed on the last day of the Show.

13. The hearty co-operation of all the Landholders and gentry of the Division, Native and European, is respectfully invited, and this can best be afforded by their searching out and exhibiting the best specimens of the Live Stock and Agricultural Produce of their estates, by contributing to the Prizes and general expenses of the Exhibition, and by their personally attending it with as many of their tenants and dependants as they can conveniently bring with them to Bhaugulpore.
